

### IN THE SPECIFICATION

Please replace the title in its entirety with:

--GLASS SHEET DESIGNED TO BE HEAT TEMPERED--.

### IN THE CLAIMS

Please amend the following claim to read as follows:

3. (Amended) The glass sheet of claim 2, wherein said sheet has a specific heat of greater than 740 J/kg.K.

B<sub>1</sub>  
4. (Amended) The glass sheet of claim 1, wherein said sheet has a specific heat of greater than 740 J/kg.K.

B<sub>2</sub>  
9. (Amended) The glass sheet of claim 1, wherein said matrix comprises, in percentages by weight, Na<sub>2</sub>O and optionally K<sub>2</sub>O in amounts which satisfy the following relationship:

$$\text{Na}_2\text{O} + \text{K}_2\text{O} > 17\%.$$

✓  
Please cancel claim 16.

### Remarks

Claims 1-15 are present in the application for the Examiner's review and consideration, including amended claims 3, 4, and 9. Claims 3 and 4 have been amended to recite a specific heat of greater than 740 J/kg.K, support for which can be found for example on Page 3, lines 37-38 of the specification. Claim 16 has been canceled.

Applicants note that an Information Disclosure Statement was submitted on November 26, 2001. Applicants respectfully request that the references be made of record in this application, and that the Examiner complete and return an initialed Form PTO-1449.

In the Office Action, the Examiner rejected claim 9 under 35 U.S.C. § 112, second paragraph, and stated that claim 9 allowed for Na<sub>2</sub>O to be optional. In response, Applicants have amended claim 9 to recite that said matrix comprises, *inter alia*, Na<sub>2</sub>O and optionally K<sub>2</sub>O. Thus, Applicants believe that the § 112 rejection has been overcome, and should be withdrawn.
